Green

NOTE: Actual colors may be slightly different than what you see above due to different screen settings.

Description

The 6" high steel raised shelf is available in (4) different lengths, and can mount to any workbench. Most riser units attach to the top worksurface (on steel tops they mount from the side), and can be stacked up on top of each other up to 36" high. Providing shelves are the same length, the 12" and 18" high raised shelves can also interstack with the 6" high riser. We offer other items such as rear backplates, full rear enclosure panels, and electrical strips that will mount to any of our raised shelf units
