

# 3512 Series Mobile Workbench

## 5" Adj. Height (Mobile)

## 72" x 30" - 13 Gauge Formed Steel Top

### Bench Top

#### Steel Top

The standard 13 gauge steel top is brake formed with a double 1 1/2" bend in the front, and a 4 1/2" bend in the rear. The rear bend can act as a second stringer for extra support. All tops are painted with a baked enamel finish

### Description

#### 3512 Series Mobile Workbench

The 3512 mobile table is constructed with 14 gauge fully arc welded legs that are joined together with a stringer. All of these work benches have 4" 330# capacity rubber over steel casters that are welded to the 5" adjustable leg cap. We include a 12" lower shelf that can be mount in (3) areas on the bottom leg strut. The 12" shelf helps tie the legs together and increase support. A full depth 24" deep bottom shelf can always replace the half depth shelf for an additional cost.
