

1025 Series Work Bench

Fixed Hgt. (knock down)

72" x 30" - 1 3/4" Stainless Skin Top

Bench Top

Hardboard with Stainless Skin

This style worksurface is easy to keep clean with a 20 gauge stainless steel 304-4P skin. We start with the standard 1 3/4" hardboard top and then adhere a the skin. The hardboard protects the surface from denting and also helps keep noises from resonating through the steel.

Description

This tubular frame workbench features a bolt together design which has the same appeal of our full welded versions. The 2" x 2" 16 gauge box tube legs are fully arc welded and each are bolted together with a 16 gauge formed stringer. Leg leveling glides are included on all of these workstations, and all of the work bench accessories we offer will attach to this style workbench.
